

Thank you for updating your ATS product!

If you have already installed the software for your ATS product and just want to do an update, follow these instructions. If you are installing the software for the first time follow the instructions that came with the product.

Note: These instructions assume that you are using Microsoft Internet Explorer. If you are using Firefox or another browser there will be differences from the screens shown here.

REGISTRATION:

In order to receive technical support you **MUST** register your products. Your information will be kept on file and referenced before any support is administered. You may register on-line by going to: <http://www.automotivetestsolutions.com/registration.htm>. Your information is kept confidential and will not be shared.

DOWNLOAD YOUR ATS SOFTWARE:

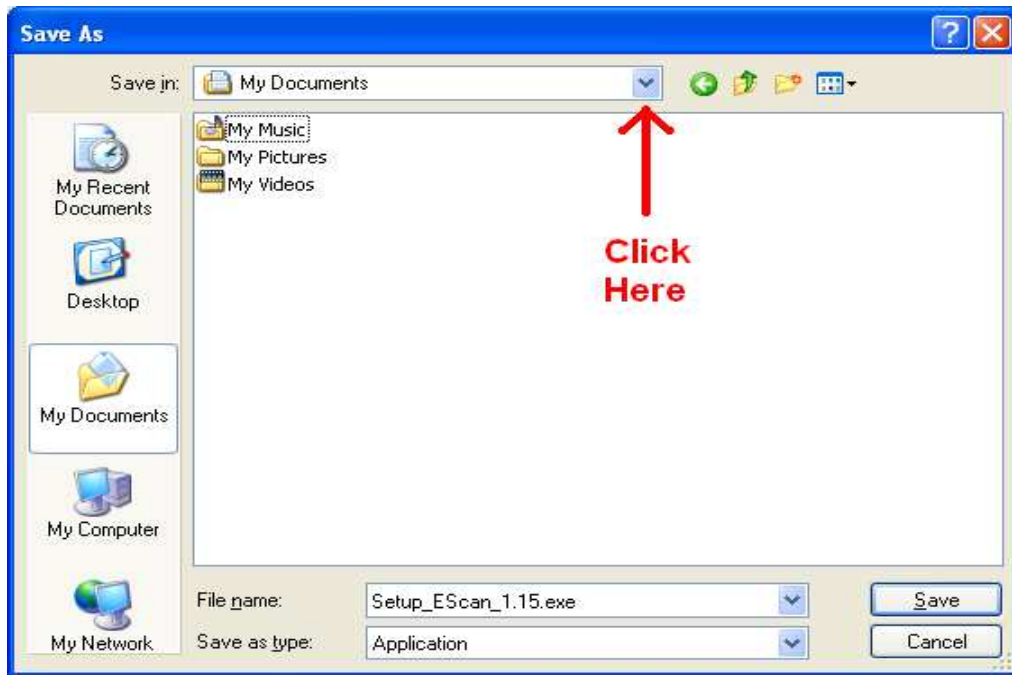

1. Click on the download link for the software on the Automotive Test Solutions web site:
<http://www.atsnm.com/downloads.htm>
2. When the download starts, click on **Save**.

Note: Your screens may look slightly different from those shown here.

If using Windows XP:

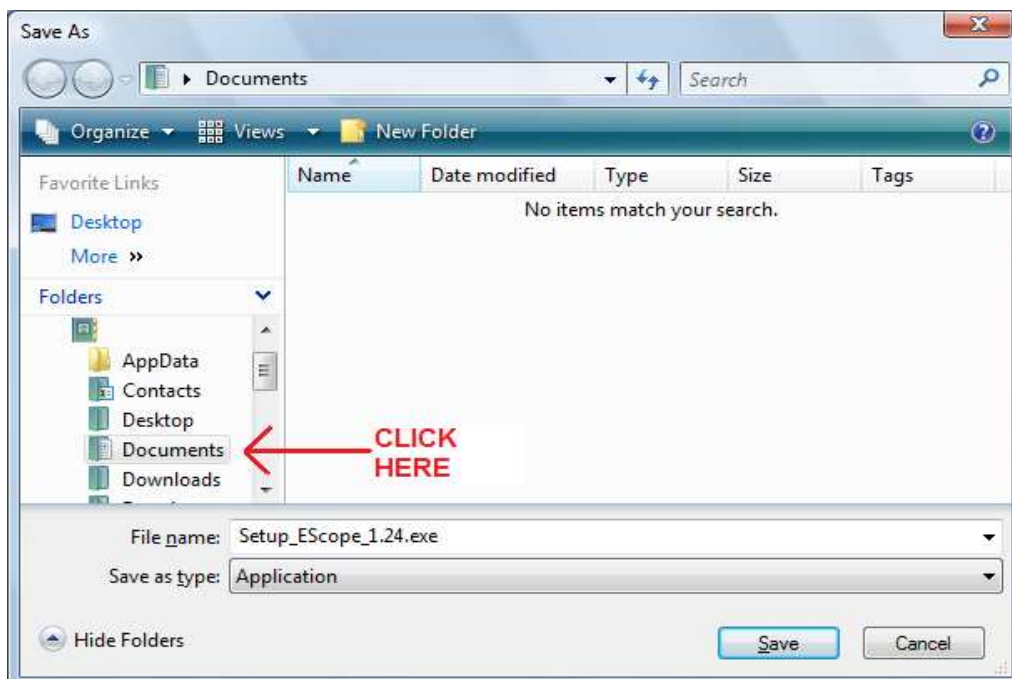

3. On the “Save As” window, click on the down arrow for “Save in” and navigate to “My Documents” as shown below.

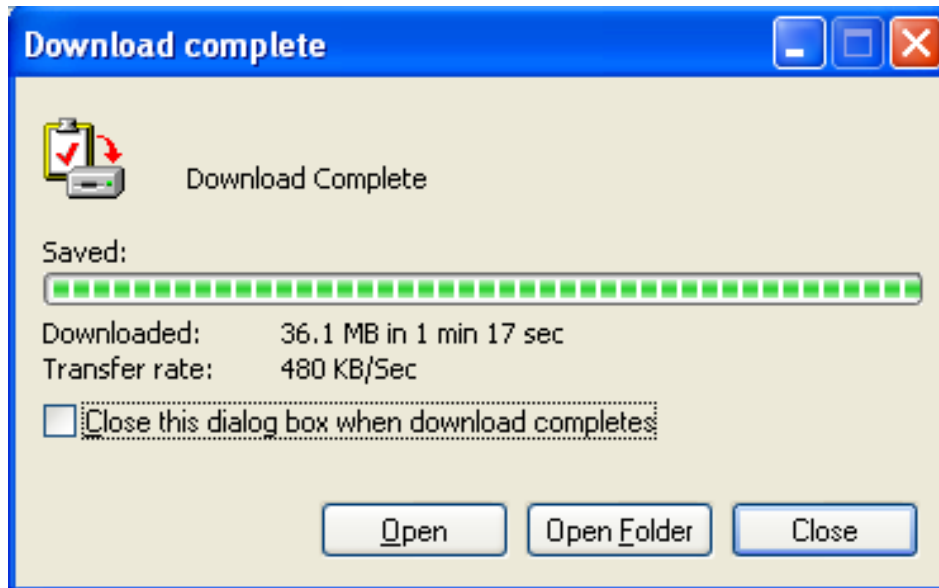

4. Once “My Documents” is displayed in “Save In:”, Click **Save**
5. Proceed to step 9.

If using Windows Vista:

6. On the “Save As” window, click on **Browse Folders** (if needed) to show the “Folders” display.
7. Click on **Documents** to select the Documents folder.
8. Once “Documents” is highlighted in “Folders”, Click **Save**.

9. At this point the download will start.

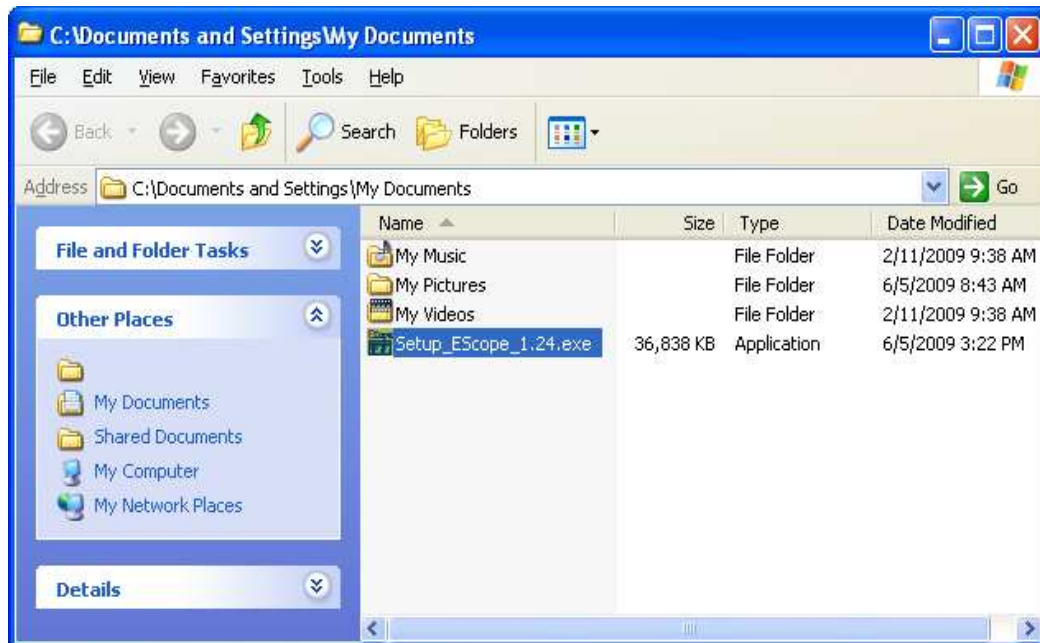

10. When the download is completed, click on **Open Folder**:

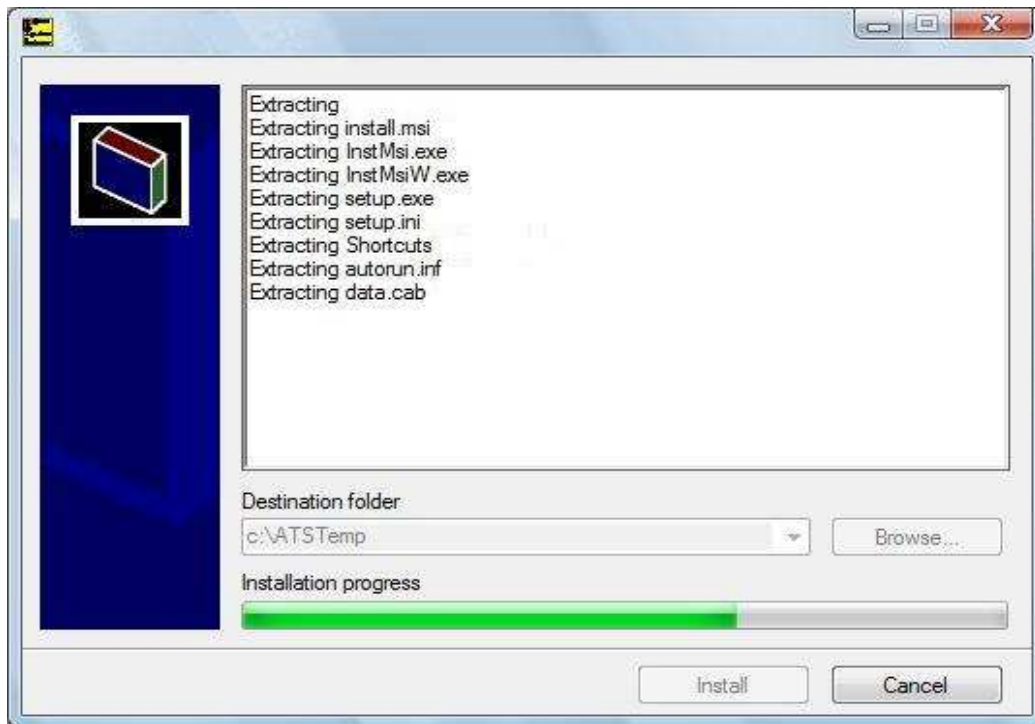

Note: If the software is already installed on you computer, the installer will need to be run twice; the first time to uninstall the software, the second time to install the new update.

UNINSTALL THE SOFTWARE

11. Double click on the downloaded file (“Setup_Escope_1.24.exe” in this example. Your file may be different.)

12. At this point you will see the “self-extracting” window:

13. When the “self-extracting” window finishes, the uninstall for the product starts; Click **NEXT** and then **FINISH**.

Note: This example shows the EScope. Your screens may look different.

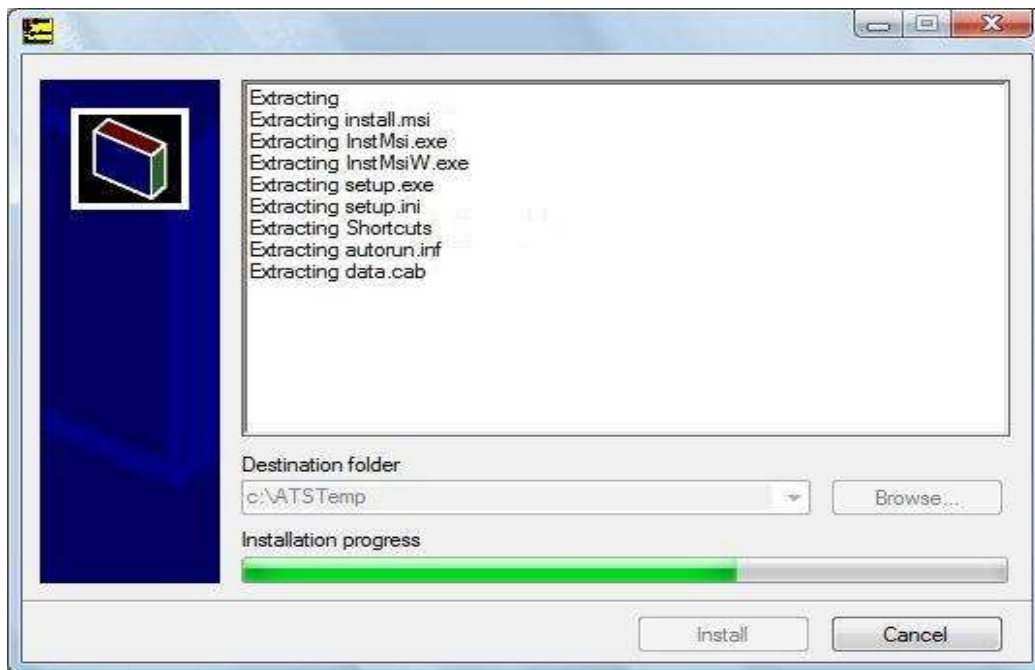

14. *If using Windows Vista:* When the uninstaller finishes, click on the flashing **Microsoft (R) Windows** in the task bar and then click **Continue**

15. At this point the ATS software is uninstalled. Next you will need to run the installer again to install the update.

INSTALL THE UPDATE

16. As above in step 11, double click on the downloaded file
17. Again, you will see the “self-extracting” window:

18. When the “self-extracting” window finishes, the install for the product starts; Accept all defaults, then Click **FINISH**.
19. *If using Windows Vista:* When the installer finishes, click on the flashing **Microsoft (R) Windows** in the task bar and then click **Continue**

20. At this point the update is installed.
21. A shortcut for the installed program has been placed on your windows desktop. Click this shortcut to run program.
22. If you have an internet security program like “Norton Internet Security” it may warn you that the an ATS program is trying to access the internet the first time you run it. If this happens tell the security program to **unblock** the program. The ATS program needs to be unblocked so that it can communicate with other ATS products for the MultiTool function.

SOFTWARE UPDATES:

Keep your ATS software up to date!

Go to <http://www.automotivetestsolutions.com/updates.htm> for the latest updates.

I would like to personally thank you for choosing ATS. At ATS we stand behind our products and we are proud of the service we give to our customers. If you have any questions concerning the use of any of your ATS products, please call us at 800-572-6112.

Sincerely,

A handwritten signature in blue ink, appearing to read "Bernie Thompson". The signature is fluid and cursive, with a large, sweeping flourish at the end.

Bernie Thompson
